AT HOME

Brilliant, responsive, thoughtful...
Stamford Stone came up with great
suggestions for a non-standard sized fireplace,
cut and delivered some beautiful stone and
provided real value for money. The room
now looks fantastic and I'm in love with the
final result!

WELCOME TO OUR EXCLUSIVE FIREPLACE COLLECTION

English limestone is a wonderful choice for bringing warmth and beauty to spaces where you live, work, entertain and relax.

Natural and timeless, its subtle variations in colour intermingled with fossils give every fireplace unique character that mellows and improves with age.

We are delighted to offer you a beautiful range of classic and contemporary fireplaces, hand carved using only limestone from our famous Lincolnshire Oolitic belt.

The choice is yours - from sleek minimalist surrounds to traditional embellished styles perfect for rooms of every size and shape. If you don't see one you like, we will design one for you!
